March 1, 2009

Dear Parents,

Thank you for your interest in Yount Horse Services' horsemanship day camp. I am a certified teacher and have taught special education at both the elementary and junior high level for 23 years, along with 20 years of riding and horse training experience.

The goal in Day Camp is to provide your child with an education and hands on experience with horses along with some fun and games with friends. Camp days consist of two riding periods, a hands-on educational forum on horses/horse care, swimming if appropriate, games, lunch, an arts and crafts period, and stories or videos. As with any experience for children, I feel the key to success is supervision and guidance, which your child will receive an abundance of during Day Camp.

I invite you to call or stop over and see our operation anytime. The barn is located between Scottsdale Road and Tatum Boulevard on 66<sup>th</sup> Street. I look forward to meeting you and working with your child.

Sincerely,

*Teri Yount*
